

## **TOLLWAY GROUP:**

CREATION AND DEVELOPMENT  
OF THE TRANSPORT INFRASTRUCTURE  
BASED ON THE PRINCIPLES  
OF PUBLIC-PRIVATE PARTNERSHIP (PPP)

# ABOUT THE GROUP

Tollway Group is a group of companies that works for the development of the transport infrastructure and the improvement of the transport industry in the cities and regions of Russia, based on the principles of Public-Private Partnership (PPP)  
The key target of the Group is the social and economic development of the country through increasing the mobility and the quality of life of its population.

Tollway Group includes specialized companies that altogether perform the operational activities of the Group:

# PUBLIC-PRIVATE PARTNERSHIP

The Group implements investment projects based on the principles of Public-Private partnership (PPP), with the entire set of works: from an object selection, feasibility studies, design to construction with the subsequent operation of the created objects.

PPP advantages for public partners:

- Budget expenditures efficiency increase due to private investments.
- Balanced risk distribution between public and private partners.
- Use of private partners' successful experience in the field of project management.
- Increased quality of services provided to population.
